

Ideation Phase

Define the Problem Statements

Date	28 June 2026
Team ID	SWTID-2026-2221
Project Name	Automated Employee Onboarding & Off boarding System
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement(PS)	PS-1	PS-2
I AM(Customer)	HR Manager	Security Team Member
I'm Trying To	Manage employee onboarding and offboarding quickly and accurately	Complete employee access provisioning and deactivation on time
BUT	The process involves many manual approvals, paperwork, and coordination across departments.	I receive requests late and have limited visibility into task status
BECAUSE	There is no centralized automated workflow to manage employee lifecycle tasks.	Requests and approvals are not automated or properly tracked.
PWHICH MAKES ME FEEL	Frustrated due to delays, increased workload, and the risk of errors.	Stressed, inefficient, and concerned about security and compliance.
